### **REASONS FOR ALLOWANCE**

Claims 1 and 3-7 are allowed.

The following is an examiner's statement of reasons for allowance:

The Examiner accepts Applicant's arguments regarding the Ruff et al. and Murata et al. references.

As per independent claim 1, the prior art does not teach the automotive refrigeration system combination as recited, and in particular wherein a liquid pump is arranged in a passage connecting between a bottom of the evaporator and a downstream side of the check valve, the liquid pump being capable of collecting from the evaporator a liquid refrigerant stored therein.

As per independent claim 3, the prior art does not teach the method of operating an automotive refrigeration system as recited, and in particular wherein the refrigerant in the evaporator is collected by sucking the refrigerant in the evaporator and preventing the refrigerant from flowing in the evaporator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.
